### Product Description

RMS model The Titanic is not only an incredible journey into the past, but also a great opportunity to experience history in a modern way. During her first voyage on the night of 14-15 April 1912, the Titanic became the symbol of a tragic maritime disaster that still evokes strong emotions today. This model is a tribute to this legendary transatlantic steamer, which was 268.99 metres long and 29.41 metres wide and had 2,228 people on board. The model, built from 593 COBI bricks, is 38.5 cm long and 12 cm high on a scale of 1:700. It accurately reproduces the shape and form of the Titanic and numerous details, such as movable cranes, screws and a rudder, ensure authenticity and the possibility of interaction. The set also includes an elegant presentation stand with a plaque, making it an ideal element for presentation in any interior. Thanks to the intuitive building instructions, which are based on simple symbols and pictograms, the construction process is a pleasure. The model does not need to be glued or painted, and all inscriptions and graphics are permanently printed on the blocks, ensuring durability and resistance to intensive play. Without the use of stickers, the set is designed for ages 7+ and its quality will satisfy both younger and adult history and shipping enthusiasts. The RMS Titanic model is not only an interesting addition to the collection, but also a great way to develop passion and combine learning with fun. Perfect for displaying in cabinets or on desks, it is a perfect addition to your home or office! - 593 high quality elements, - made in the EU by a company with over 35 years of tradition, - meet the safety standards for children's products, - fully compatible with other brands of clamp building blocks, - blocks with imprints do not deform or fade during play or under the influence of temperature, - clear and intuitive building instructions based on drawings and symbols, - 1:700, - stand and sign with the ship's name, - the set does not include stickers, only permanent prints are used.
