510000756 - 1:24 MAN 26.321 Formula 6 6X4

from **47,33 EUR**

Item no.: 390284
shipping weight: 0.80 kg
Manufacturer: ITALERI

Product Description

MAN is one of the best-known and most renowned manufacturers of heavy industrial and commercial vehicles in Europe. Over the course of its long industrial history, the company has introduced numerous technological innovations that have become benchmarks in the field of heavy transport vehicles. The MAN 26.321 was equipped with the "Formula 6" 6-cylinder diesel engine, which at the time was a pioneer in the introduction of advanced technologies to optimise performance and minimise fuel consumption. The cabin design was also studied and developed to meet the needs of modern truck drivers, who were increasingly focussing on on-board comfort and ease of use. Aesthetic features such as large horns, aerodynamic attachments and the characteristic spoiler on the roof of the cab were also included in the design changes. In this version, the frame was reinforced to allow the installation of four rear wheels. TypeLorryPeriodFrom'80 CountryGermanySKILL4Model dimensions34.0 cm Body dimensions373 x 241 x 96 mm
