shipping weight: 0.60 kg
Manufacturer: COBI

Product Description

F-4S Phantom II "Black Bunny" is a unique supersonic multi-role fighter that has made aviation history! The most notable and famous use of the "Bunny" design comes from the Navy's Air Test and Evaluation Squadron Four (VX-4) at NAS Point Mugu, California. This squadron is responsible for operational testing of advanced aircraft systems. In this role, the bunny's head adorned the tail of some of the US Navy's most legendary fighters, including the F-4 Phantom II. The COBI model consists of 608 high-quality clamp-on bricks and enables the construction of the legendary F-4S Phantom II aircraft in the "Black Bunny" version. The licensed set reproduces the aircraft on a scale of 1:48 with great attention to detail. It features movable ailerons, an opening cabin, removable landing gear and weapons as well as characteristic decals. The set includes a display stand made of clamping bricks and a sign with the name and scale of the aircraft. Model dimensions (length x width x height): 380 mm (14.96 in.) x 240 mm (9.45 in.) x 120 mm (4.72 in.) - 608 high-quality elements. - Produced in the EU by a company with over 35 years of tradition. - Complies with safety standards for children's products. - Fully compatible with clamp building blocks from other brands. - Building blocks with imprints that do not deform or fade. - Intuitive building instructions based on drawings and symbols. - 100% prints, no stickers. - Presentation stand included. - A sign with the name of the set.
